

# Partnership Preferences

- **Brief overview :**

- I am seeking an organization that assesses innovations as defense capabilities, rather than technical products.
- The importance of these capabilities becomes evident in conventional conflict scenarios, contributing at the strategic level to improving performance in comprehensive defensive operations.

# Cooperation Conditions

- **Cooperation can proceed without the clauses of the Industrial Research Alliance Agreement, as long as the following conditions are respected :**

- Presence of genuine partnership intent
- I am not interested in technical intelligence gathering for commercial purposes
- **Corporate Evaluation Model :**
- Companies seeking commercially oriented solutions or relying on economic or technical evaluation models.
- **Strategic Military Evaluation Model :**
- Acknowledgment of the existence of a defense challenge (threat assessment and strategic studies and Defensive Foresight Analysis)
- **Project feasibility evaluation based on :**
- Military sciences, strategic foresight studies, threat modeling, strategic integration, and military defensive capability advantage
